## 100% principal protection

Your premium and income are protected from market losses for the entire guarantee period.

## Tax-deferred earnings

More of your money can compound because you don't pay income taxes on interest until you withdraw.

## How It Works in 3 Simple Steps

---

1

**Choose your premium amount (Minimum \$10,000; up to \$1,000,000 without prior approval).**

2

**Select your guarantee period (5, 6, or 7 years) and lock in your fixed rate for that term.**

3

**Watch your savings grow as interest is credited and compounds daily, guaranteed for the entire term.**

# Elevating Your Accumulation Options

**American Gulf's Anchor MYGA is a fixed-income option that avoids stock market volatility and delivers guaranteed value at the end of your selected term.**

Savings accounts are liquid but pay little. CDs are safe but taxable. MYGAs are safe, tax-deferred, and pay more — making them ideal for retirement savers. Below is an overview of how our MYGA performs against traditional accumulation options.

# Important Information

Annuities are designed for long-term accumulation of money; surrender and withdrawal fees may apply on early withdrawals. Annuity withdrawals are subject to income tax, and withdrawals prior to age 59½ may also be subject to an IRS penalty. Holding an annuity inside a tax-qualified plan does not provide any additional tax benefits. If you annuitize a non-qualified annuity, a portion of your payment will be considered a return of premium and will not be subject to ordinary income tax. The amount that is taxable will be determined at the time you elect to annuitize the policy. This document provides a brief summary of product features.
