# Tackle market challenges and add certainty to your retirement savings

You've probably weathered your fair share of market volatility, rate swings, and inflation over the years. The good news is, you can protect your money from losses, and focus on the long term by locking in growth with a *Lincoln OptiBlend*<sup>®</sup> fixed indexed annuity.

**Most investors agree protection is important**

**87%**

We've found that 87% of investors say they'd prefer to invest in a solution that protects them from market volatility, even if it means fewer gains in up markets.

Lincoln Financial, "Consumer Sentiment Tracker," 2024.

## A powerful strategy with three key benefits for your retirement portfolio

### Upside growth potential

You can choose to guarantee growth with a fixed interest rate every year and position yourself for higher growth potential based on positive index performance.

### 100% downside protection

Your account will never be credited less than 0% – even in a down market. So, your retirement savings are protected.

### No cost

There are no ongoing product charges,<sup>1</sup> which helps you save more of what you earn.

<sup>1</sup> Beginning in the first contract year, during the surrender charge period, you can withdraw up to 10% of your account value each contract year without incurring charges or a Market Value Adjustment.

# Get growth potential with a range of choices

You can mix and match these account options to create a strategy that helps meet your financial goals. How the accounts work:

## Fixed

- Fixed Account

### Your money has guaranteed growth

Your account is credited a fixed interest rate that's guaranteed for one year regardless of market performance. A new interest rate is declared annually.

## Dual Trigger

- 1 Year S&P 500 Dual Trigger

### Your money can grow in up, flat and down markets

Your account is credited a set rate in an up or flat market. If the index is negative by less than the value of the rate, the difference is credited.

## Trigger

- 1 Year S&P 500 Performance Triggered
- 1 Year S&P 500 10% Daily Risk Control Trigger
- 1 Year S&P 500 10% Daily Risk Control Trigger Lock<sup>1</sup>

### Your money can grow in up and flat markets

Your account is credited a set rate in an up or flat market. Choose from an account with a guaranteed rate for a specified number of years, or one that resets each year.

## Cap

- 1 Year S&P 500 Cap
- 1 Year S&P 500 Cap Lock<sup>1</sup>

### Your money can grow up to a cap

Your account is credited any index growth at the end of the indexed term, up to a cap. Choose from an account with a guaranteed rate for a specified number of years, or one that resets each year.

## Participation

- 1 Year S&P 500 Participation
- 1 Year Nasdaq Priva Participation
- 1 Year Capital Group Dividend Value ETF Participation
- Multi-Year S&P 500 Participation<sup>1</sup>
- Multi-Year S&P 500 10% Daily Risk Control Participation<sup>1</sup>

### You participate in the growth of the index or ETF

Your stated participation rate is multiplied by any positive index or ETF performance at the end of the applicable term.

Indexed interest is based on the performance of the respective index or ETF: S&P 500 Index, S&P 500 Daily Risk Control 10% Index, Nasdaq Priva Index, and the Capital Group Dividend Value ETF (CGDV).

<sup>1</sup>The durations of the guaranteed period for the trigger lock and cap lock accounts, and indexed term for multi-year participation accounts, are determined by the surrender charge period of the annuity. Please see applicable Fact Sheet and Rate Sheet for option(s) available.

### It is not possible to invest directly in an index.

For the S&P 500<sup>®</sup> Index and the Capital Group Dividend Value ETF (CGDV), price return values are used, which do not reflect dividends paid on their underlying stocks. For the S&P 500<sup>®</sup> Daily Risk Control 10% Index and the Nasdaq Priva<sup>®</sup> Index, excess return values are used and do include dividends paid on their underlying stocks.

Guarantees are subject to the claims-paying ability of The Lincoln National Life Insurance Company.

Indexed accounts are subject to firm and state availability. Applicable indexed interest is credited at the end of the indexed term. Amounts withdrawn (including amounts paid as death benefit) before the end of an indexed term will not receive indexed interest for that indexed term.

Fixed and indexed rates are declared annually by the issuing company at its discretion, unless guaranteed for multiple terms where indicated. Subsequent rates may be higher or lower than the initial rates and may be different from those used for new contracts.

# Trigger accounts are a simple way to lock in growth in up, flat and even down markets

Let's take a closer look at how they can help you grow and protect your money, no matter what the market does.

## All of our trigger accounts lock in growth in up and flat markets

▲ The index is up

**Your account grows.**  
The full rate is credited.

▶ The index is flat

**Your account grows.**  
The full rate is credited.

▼ The index is down

**Your account is 100% protected.**  
No interest is credited.

---

## The Dual Trigger account also helps you lock in growth, even in down markets

---▼ The S&P 500 Index is down less than the trigger rate

**Your account grows.**  
It is credited the difference of the negative return and trigger rate.

---▼ The S&P 500 Index is down by the value of the trigger rate or more

**Your account is 100% protected.**  
No interest is credited.

# Benefit from diversification in all markets

A well-diversified portfolio can be an effective way to enhance your earnings potential. Let's take a look at how our complementary strategies could have helped you capture growth potential in up markets, and provided 100% downside protection in down markets over the last ten years.

**ABOVE  
AVERAGE  
MARKETS**

- **Cap accounts** offer growth potential up to a cap, allowing you to benefit when markets are up — with options for a multi-year rate guarantee.
- You can position yourself for **more upside growth** potential and better diversification by also allocating to a **participation account**, including options for multi-year rate certainty.

**BELOW  
AVERAGE  
MARKETS**

- **Trigger accounts** are especially valuable in times of positive — but muted — performance.
- You can still get the **full specified rate** as long as the index is flat or positive — with options for a multi-year rate guarantee.

**DOWN  
MARKETS**

- *Lincoln OptiBlend*<sup>®</sup> offers **100% downside protection**, helping you create a more resilient portfolio.
- It can even provide positive crediting with the **Dual Trigger** account.

## 4 out of 10 years: highest returns

**KEY TAKEAWAY:** In four of the last ten years, the S&P 500 Index had returns of around 20% or higher.<sup>1</sup> Likewise, the 1 Year S&P 500 Participation account would've offered **double-digit returns** four out of the last ten years.<sup>2</sup>

## 7 out of 10 years: full guaranteed growth

**KEY TAKEAWAY:** The 1 Year S&P 500 Performance Triggered, 1 Year S&P 500 10% Daily Risk Control Trigger, and 1 Year S&P 500 10% Daily Risk Control Trigger Lock accounts would have credited the **full specified rate seven out of the last ten years.**<sup>1</sup>

## 3 out of 10 years: protection and growth

**KEY TAKEAWAY:** The market was negative three of the last ten years, but you could have **locked in growth** during two of those years with the 1 Year S&P 500 Dual Trigger account (and benefited from 100% protection the other year).<sup>3</sup>

FOR ILLUSTRATIVE PURPOSES ONLY.

<sup>1</sup> S&P Dow Jones Indices LLC and Macrotrends LLC. Data is based on beginning of the index year performance for 2015 – 2024.

<sup>2</sup> This example assumes a 52% participation rate.

<sup>3</sup> This example assumes a 7% trigger rate.

# Access flexible benefits if you need them

## Tax-deferred growth

Keep more of what you earn while growing your portfolio. You won't be taxed on your growth until you withdraw your money.

## 10% free withdrawals

Beginning in the first contract year, during the surrender charge period, you can withdraw up to 10% of your account value each contract year without incurring charges or a Market Value Adjustment (MVA).<sup>1</sup>

## Income to help meet your needs<sup>2</sup>

You can receive income for life or for a period of time by choosing from several options available to you.

## Access for medical needs

If you have a qualifying medical need, *Lincoln OptiBlend*<sup>®</sup> has a nursing home and terminal illness provision that allows you to access your money without charge, after the first contract year.<sup>3</sup>

## A legacy for your loved ones

Before your contract is annuitized, any remaining account value will pass to your beneficiaries as a death benefit.

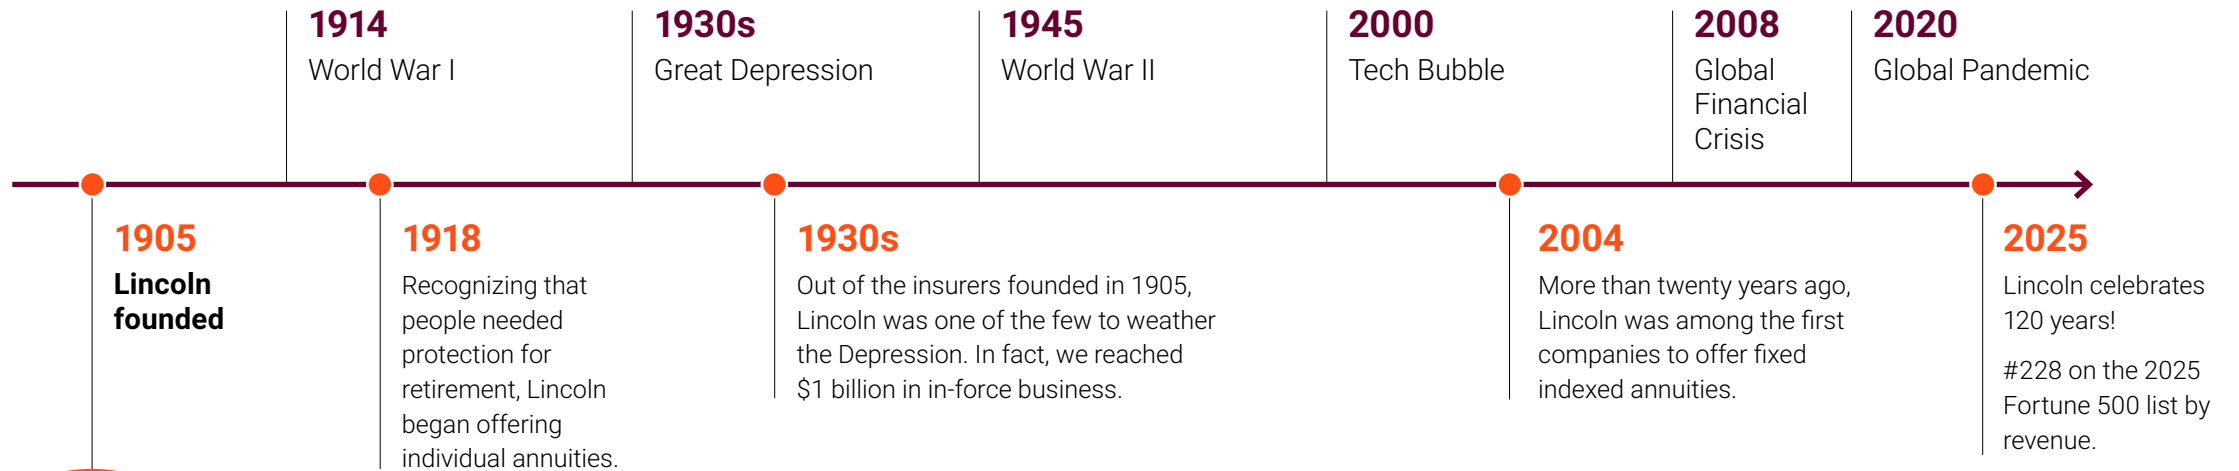

<sup>1</sup> The MVA is a positive or negative adjustment based on the current interest rate environment at the time of the withdrawal. It does not apply to withdrawals after the surrender charge period, 10% free withdrawals, the death benefit, annuitization or contracts issued in select states. In California there is no Market Value Adjustment and the surrender charges are different.

<sup>2</sup> Annuitization can occur after the fifth contract year or after the first for Florida. Once income streams are started, annuitization cannot be stopped. Withdrawals (including amounts paid as a death benefit) and any charges are deducted first from the Fixed Account. Money taken from the Fixed Account will reduce the actual amount of interest credited. After the Fixed Account is exhausted, withdrawals (including amounts paid as a death benefit) and any charges are deducted proportionally from the indexed interest accounts. Money taken from an indexed interest account will not receive any indexed interest for that indexed term.

<sup>3</sup> Nursing home rider not available for contracts issued in Massachusetts.

# A history of strength and stability

Since inception we have been successfully navigating the changing landscape through good and bad times and continue to stand strong, stable and dedicated to helping Americans confidently succeed their way.

*Fort Wayne, Indiana, circa 1905*

In August 1905, Robert Todd Lincoln provided a photograph of his father, along with a letter authorizing the use of his father's likeness and name for company stationery and advertising.

**The Lincoln National Life Insurance Company financial strength ratings<sup>1</sup>**

- AM Best: A (3rd highest of 16)
- Fitch: A+ (5th highest of 19)
- Moody's: A2 (6th highest of 21)
- Standard & Poor's: A+ (5th highest of 21)

Your tomorrow.  
Our priority.\*

### Upside growth potential. Downside protection.

Ask your financial professional how a *Lincoln OptiBlend*® fixed indexed annuity can help you prepare your portfolio for the secure retirement you deserve.

#### Important information:

Lincoln Financial® affiliates, their distributors, and their respective employees, representatives, and/or insurance agents do not provide tax, accounting, or legal advice. Please consult an independent professional as to any tax, accounting, or legal statements made herein.

A fixed indexed annuity is intended for retirement or other long-term needs. It is intended for a person who has sufficient cash or other liquid assets for living expenses and other unexpected emergencies, such as medical expenses. A fixed indexed annuity is not a registered security or stock market investment and does not directly participate in any stock or equity investments, or index.

*Lincoln OptiBlend*® fixed indexed annuities (contract form ICC1515-619 and state variations) are issued by The Lincoln National Life Insurance Company, Fort Wayne, IN, and distributed by Lincoln Financial Distributors, Inc., a broker-dealer. **The Lincoln National Life Insurance Company does not solicit business in the state of New York, nor is it authorized to do so. Contractual obligations are subject to the claims-paying ability of The Lincoln National Life Insurance Company.**

This annuity does not participate directly in any stock or equity investment and does not include the purchase of shares of stock or an index. The indexed accounts use an outside benchmark for determining indexed account earnings. Any dividends paid on the stocks on which the benchmark is based do not increase the annuity earnings. All payments and values provided by the contract, when based on performance of the indexed account, are not guaranteed to be equivalent to the benchmark. The composition of the benchmark and the methodology used by the benchmark to calculate its performance are not guaranteed and may be changed at any time by the benchmark provider.

Waiver of Surrender Charges for Nursing Home Confinement Rider and Waiver of Surrender Charges for Terminal Illness Rider (form AE-119 (Rev 11/13) and form AE-170 (Rev 10/07), respectively, and state variations) may not be available in all states. Nursing Home Confinement Rider not available for contracts issued in Massachusetts.

The exact terms of the annuity are contained in the contracts and any attached riders, endorsements and amendments, which will control the issuing company's contractual obligations. For more information about the annuity, please also read the Disclosure Statement and Fact Sheet, or contact your representative.

Income taxes are due upon withdrawal and if withdrawn before age 59½, an additional 10% federal tax may apply. Withdrawals and surrenders may be subject to surrender charges and a Market Value Adjustment.

There is no additional tax-deferral benefit for contracts purchased in an IRA, since they are already afforded tax-deferred status.

The S&P 500® Index and the S&P 500® Daily Risk Control 10% Index are products of S&P Dow Jones Indices LLC, a division of S&P Global, or its affiliates ("SPDJ"), and have been licensed for use by The Lincoln National Life Insurance Company.
